

MISSION STATEMENT

We know that accidents do not happen on purpose, but can be purposefully prevented. Our products are more than just equipment to 'get the job done'; they are essential items that help to prevent accidents and save lives.

Safety is for everybody and our high-quality, reliable PPE products are created to provide the best protection for as many people as possible worldwide.

Each product produced has a history. They are all ethically sourced, certificated and quality checked. These records are available to all.

Personal growth is encouraged, with equal opportunities for progression to all members of staff. A duty of care to personnel, past and present, maintains the trust and integrity that brings together the Beeswift family. We strive to create a supportive working environment, not only for our employees but also for all partners of our business who contribute to our success.

Moving forward as a growing company, our commitment to continual conservation, improvement and protection of the environment is at the forefront of what we do. We are committed to ensuring the growth of our business with the same honesty, respect and integrity we use to source and supply our products.
